We provide top-rated rehabilitation equipment and expertise from world's leading manufacturers of rehabilitation technologies

Our Services

TECHNOLOGIES FROM WORLD'S LEADING MANUFACTURERS

Our product portfolio includes equipment from leading manufacturers in the field of rehabilitation technologies. Reliable products which are being used by rehabilitation experts worldwide.

CONSULTATIONS AND SUPPORT

We will help you to find the best solution for your medical facility. Our company provides both technical and clinical support in any time needed for our customer.

REHABILITATION EXPERTISE

Selecting the most efficient equipment, you might need to hear experience of other colleagues. Our company can link you with reference centres here in the Baltic states, or in any other place in Europe, where experts will share their experience in usage of technologies.
